

## The Geomancy Seminar:

*mit Devamata and Andreas,  
from Freiburg / Germany:*

*How would Mother Earth build houses and create living spaces if she could? For a long time we lost contact with her. Today it seems very important to learn to feel her again and to perceive her wisdom in our hearts.*

Why do some places give us power and others drain our vital force? What does it depend on how we feel in a place (if we feel good in a place or not) and can we change those things? What are positive and negative energies and how can we harmonize problematic zones to create places with a healthy vital force?

A training of "Earth healing through allowing": when we create power places or harmonize burdened areas, it is our heart which is the wisest and best advisor: via the unity with the heart of the earth and her powers we recognise the background of a place and the ways to create power places. We learn to find simple and effective answers in a spontaneous, yet very precise way, to deal with more complex difficulties.

The aim of the seminar is to conduct your own earth healing projects. We exercise counselling each other and leading a group for your own earth healing events. What is learned here can be passed on in your own responsibility.

*Andreas Lohmann, born 1967, works since 20 years as a healer. His seminars are about earth healing and aura work, and took place several hundred times. Devamata Johannes, born 1972, lived 15 years in London and Barcelona. She gives body therapy to people and has a deep relation to angels and landscape angels. Today we both live in Freiburg in Germany. We give this Seminar together or apart, depending on when and where we are invited to. For further information see ...*

### Seminar Program:

*on fridays:*

**7-8 pm:** Introduction (in the seminar room), the perception of the aura, healing with our hands, inner guidance and energetic support through the contact to the avatars

**8-10 pm:** introduction (outside) into the geomancy: "When heaven and earth meet". Also: the tree network, the ocean of the uncreated universe. Inner guidance to find places. Meeting with Pan and the fire of Avaon.

*on saturdays:*

**9 am-7 pm:** "Project day" about one or more earth-and-city-healing topics from the region that have an important impact. The day takes place mainly outside with breaks on the way. You will learn numerous earth healing methods that are exercised (over and over). "Earth healing by allowing" is the central focus, but also the spontaneity to not hold on to the known

and familiar ways, will embrace the new space with its treasures and bonds. The healing and restoration of regional structures and the own healing and development go in line with each other. They are interlinked. During that day we experience the contact with elemental beings, we learn the dialogue with trees and landscape angels. We practise the liberation of disturbed and burdened sites or magic influences. We learn to meet the landscape from a secure point of view and move within its attentively.

*on sundays:*

**9-12 am:** (in the seminar room) Healing of the local landscape angels, the Inner guidance and innate methods of our soul- our geomantic repertoire grows.

**1.30-4 pm:** Reading maps and counselling each other, here you will get homework, to do in your own living and working space. Please bring regional maps and a plan of your personal and working space!

**4.30-7pm:** (outside) Exercising and repeating and of all learned methods as independent as possible.

### Where and when ?
