

The Aura Seminar

mit Andreas and Devamata from Freiburg / Germany:

After this seminar the spiritual world of aura and energy won't be a mystery to you any more: your questions about perception and certainty on the subject of energy and light work are solved. Real and clear experiences that have led you to your own completeness have placed your spiritual and healing activities on a clear and safe ground.

You learn to perceive the aura in an awake state of consciousness and you will be introduced to a number of efficient methods, that will allow you to offer help and passage to healing via the aura. These healing paths support all imaginable aspects of life and problems. You learn to be a divine source of energy yourself. From this position you will manage to deal with simple and complex energetic issues.

As another base for your healing work you learn to receive solid and competent messages from the spiritual world, without entering into any state of trance. These will accompany and help to develop your healing methods and your own further path, after the seminar.

Andreas Lohmann, born 1967, works since 20 years as a healer. His seminars are about earth healing and aura work, and took place several hundred times. Devamata Johannes, born 1972, lived 15 years in London and Barcelona. She gives body therapy to people and has a deep relation to angels and landscape angels. Today we both live in Freiburg in Germany. We give this Seminar together or apart, depending on when and where we are invited to. For further information see ...
